

ORA.

Inspired by You, Built by Us.

— YOUR INSPIRATION

You've been
saving ideas for
years.

The Pinterest board. The Instagram saves. The YouTube rabbit holes at midnight. You know exactly what you want your space to feel like.

— OUR EXECUTION

Now it's time to *live*
it.

ORA Spaces converts digital inspiration into physical reality — handling every detail from design coordination to final handover.

POINT OF CONTACT

— THE REALITY

Inspiration is easy. *Execution* is hard.

Most people spend months collecting ideas — and then face a completely different world when it's time to actually build. Here's what typically goes wrong:

◆ No single point of accountability

Contractors, vendors, and suppliers operating without coordination. You become the project manager — without the expertise.

◆ Budgets that keep moving

What starts at ■8L ends at ■14L. Unexpected costs arrive after work has already started — when walking away isn't an option.

◆ Timelines that stretch indefinitely

"2 months" turns into 5. You're living out of boxes, working from disrupted offices, or delaying your opening.

◆ Workmanship that disappoints

The gap between what you were shown and what you received. Redone work. Renegotiated bills. Lingering regret.

We don't just design your space. We take ownership of turning it into reality — on brief, on budget, and on time.

— HOW WE WORK

From *first conversation* to final handover.

Every ORA project follows a structured execution framework — so nothing falls through the cracks.

01 Discovery We listen. Your references, your lifestyle, your non-negotiables, your budget reality — everything shapes what comes next.	02 Design & Estimate Concept layouts, material selections, and a transparent scope-and-cost breakdown — before a single wall is touched.	03 Execution Our team coordinates all trades — civil, electrical, carpentry, finishing — under one roof. You get updates, not surprises.	04 Handover Punch list cleared. Final walkthrough done. Your space is ready to live in, work from, or open to customers.
--	---	---	---

— OUR SCOPE

Everything it takes to *build your space*.

ORA handles the full scope — so you don't have to stitch together 12 different vendors and hope they coordinate.

STRUCTURAL WORKS

■ Civil Works Walls, demolition, masonry, and structural changes handled with precision.	■ Electrical Works Safe, concealed wiring and load-planned electrical layouts for modern living.	■ Plumbing Full plumbing systems — from rough-in to fixture installation — done right.
■ False Ceiling & POP Architectural ceiling treatments that define zones and elevate the aesthetic.	■ Flooring Material selection and installation across tile, wood, vinyl, and stone surfaces.	■ Painting Surface prep, primer, and finish coats — walls that look as good as the swatch.

INTERIORS & FIT-OUT

■ Carpentry & Joinery Custom woodwork built to your exact dimensions — not standard catalogue sizes.	■ Wardrobes Modular and custom wardrobe systems designed around your storage reality.	■ Kitchen Solutions Layout planning, cabinet design, countertop selection, and appliance integration.
--	---	---

■ Furniture Sourced or custom-built pieces that work with your space, not against it.	■ Lighting Design Layered lighting plans — ambient, task, accent — that change how a room feels.	■ Home Automation Smart controls for lighting, climate, security, and curtains — integrated seamlessly.
---	--	---

FINISHING & DECOR

■ Soft Furnishing Curtains, blinds, cushions, and upholstery that complete the visual language of a room.	■ Decor & Styling Curated accessories, art, and objects that give a space its personality and warmth.	■ Turnkey Execution End-to-end project delivery under a single contract — one team, one timeline, one responsibility.
---	---	---

— WHO WE WORK WITH

Every space has a *different purpose*. We understand that.

The way a home should feel is different from the way a clinic should function. We think in outcomes, not just aesthetics.

Residential Homes That Feel Like You Your home should carry your identity — not look like a furniture catalogue. We build spaces that reflect how you actually live. 2 BHK · 3 BHK · 4 BHK · Villas · Bungalows	Commercial Spaces That Work as Hard as You Do A well-designed workspace improves focus, signals credibility to clients, and communicates your company's culture without a word. Corporate Offices · Co-working · Clinics · Salons	Retail Environments That Sell Your store, café, or restaurant is your brand made physical. The right environment drives dwell time, purchase intent, and loyalty. Restaurants · Cafés · Fashion Stores · Jewellery Stores

— WHY ORA SPACES

Capability is common. *Accountability* is rare.

I

SINGLE-CONTRACT EXECUTION

You sign once. We handle all trades, all vendors, all coordination. No triangulating between a carpenter, a contractor, and a supplier who each blame each other.

II

SCOPE-FIRST TRANSPARENCY

Before execution begins, you receive a documented scope, timeline, and cost estimate. Changes are discussed openly — not discovered in the final bill.

III

INSPIRATION-LED, OUTCOME-FOCUSED

We start from what you've collected and imagined — and work backwards into a feasible, beautiful, buildable plan.

IV

FULL SCOPE. NO HANDOFFS.

From civil work to curtains, from lighting design to home automation — all in-house. So nothing falls between departments.

— OUR PROMISE

We don't just build spaces. We own the outcome.

Most interior projects fail not because of bad design — but because of poor execution. Missed details. Broken communication. No one taking final ownership. At ORA, every project has a dedicated manager. Every decision is documented. Every handover is checked against the original brief before we call it done. This is what we mean by execution. Not labour. Not coordination. Ownership.

Inspired by You, Built by Us.

— CLIENT EXPERIENCES

What *living the result* feels like.

I had a folder of 400 reference images and no idea how to communicate them. ORA listened for two hours in the first meeting and somehow translated all of it into a home I didn't know I could afford to have.

Meera & Rohit S.
3 BHK, Andheri West
RESIDENTIAL

We needed our clinic to feel reassuring and clinical at the same time. ORA understood that balance completely — they didn't need us to explain it twice. Delivered two weeks early.

Dr. Priya Nambiar
Dermatology Clinic, Bandra
COMMERCIAL

We had a hard launch date — investors were coming. ORA hit it. Not approximately. On the day. The café looked exactly like what I had on my mood board, and footfall in week one exceeded projections.

Arjun Patel
Founder, Third Wave Café
RETAIL

— START YOUR PROJECT

Your space is waiting to become *real*.

Tell us what you're building — or what you've been dreaming about. A brief conversation is all it takes to understand if we're the right fit.
